Frequently Asked Questions

Why get a Battery or Solar Spotlight Cam versus a Wired or Mount version?

The battery and Solar Spotlights offer the greatest amount of flexibility with mounting locations. They also allow for an additional battery to be utilized, so that you can go longer in between charges.

What's Ring Protect?

Ring Protect is a comprehensive service that activates video recording and photo capture, saving and sharing for your Stick Up Cam Elite, plus a few extra perks. There are two tiers of Ring Protect: Basic and Plus. Without Ring Protect, you'll still receive real-time notifications when anyone comes to your door, and you can answer the notification to see, hear and speak to visitors in real time right from your mobile device.

Ring Protect Basic activates video recording and photo capture and sharing for individual Ring Doorbells and Cameras. It saves all your videos to your Ring account for up to 60 days (in the U.S.) and photos for up to 7 days, so you can review what you missed and share what's important. Ring Protect Basic subscriptions start at only \$3 a month and only covers one device.

Ring Protect Plus adds even more to your home security. It includes video recording, photo capture and sharing for unlimited Ring Doorbells and Cameras at your home, and it also comes with 24/7 professional monitoring with cellular backup for Ring Alarm, and more. Ring Protect Plus subscriptions start at only \$10 a month per home.
