

# **Fiber Optic Termination Box**

AC-FIB-TERM-2

## **General Description**

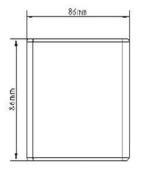

This box is used as a termination point for the feeder cable to connect with drop cable in FTTx communication network system. It integrates fiber splicing, splitting, distribution, storage and cable connection in one unit. Meanwhile, it provides solid protection and management for the FTTx network building.

#### **Features**

- Total enclosed structure, be in nice shape
- Protects and manages cable effectively
- Secured with anti-theft locking mechanism
- Standard size, light weight
- High quality ABS material
- Clamping for feeder cable and drop cable, fiber splicing, fixation, storage distribution...etc all in one
- Suitable for SC and LC duplex adaptor and pigtail
- Easy to operate
- Suitable for indoor use
- Good properties of dust, and moisture proofing

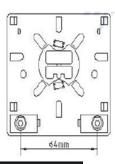

## **Application**

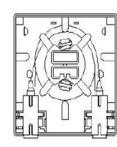

- Telecommunication subscriber loop
- LAN/WAN
- Fiber to the home (FTTH)
