

bequant

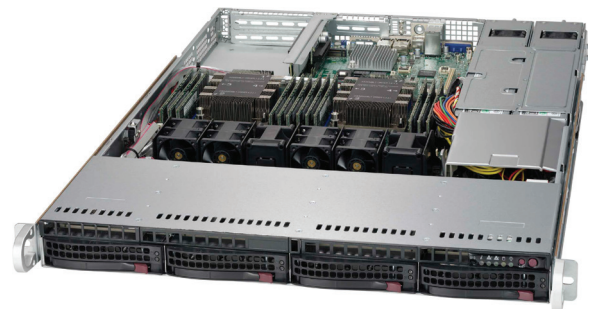

Recommended Hardware

Bequant's TCP optimiser is specifically designed for internet service providers who experience high latency and packet loss within their networks. With the most advanced congestion detection and avoidance algorithms, Bequant reduces the under-utilised network capacity and increases the speed of the Internet TCP traffic by up to 100%.

Up to 10Gbps in 1U
(Intel D-1518, 32GB RAM)

Up to 40Gbps in 1U
(2xIntel 4210, 128GB RAM)

Supermicro

5018D-FN8T

1029P-WTR

Dell

PowerEdge R230

PowerEdge R330

HP

Proliant DL360
