eSERIES APPLIANCES

The Untangle eSeries appliances are lightweight, edge devices designed for branch office connectivity, WAN performance optimization, and business continuity. Featuring multiple WAN interfaces, 802.11ac Wifi and LTE Cellular connectivity, the Untangle eSeries appliances support zero-touch provisioning and remote management via Command Center for seamless network integration into your branch office. The fanless, solid-state design of each appliance guarantees reliable service, silent operation, and a compact form factor for discreet placement within the office.
